## PERSONAL STATEMENT

*"Construction is a long process with obstacles that require nurturing, understanding, and well thought out resolutions. Working side by side with clients and contractors is a key element to ensuring great award-winning finished products, ones where both parties continue to maintain an open relationship for years beyond."*

## SPECIAL INTERESTS

- Botany
- Landscape
- Hardscape
- Pool design
- Painting and sculpture

## Juan Camilo Ospina Londoño

### PRINCIPAL / LANDSCAPE ARCHITECT

Based in the firm's Los Angeles office and serving clients worldwide, Juan Camilo Ospina Londoño is sought out by residential clients to create the vision for their home or property and then bring it to life. From creating one-of-a-kind landscape architecture designs to managing the construction through all its phases, he is trusted by clients and contractors alike to bring every project successfully to completion.

For nearly two decades, Juan worked for one of the preeminent landscape, hardscape and pool design firms in the Tri-State area of New York, New Jersey and Connecticut. He was responsible for creating the vision for projects, supervising construction, leading contract negotiations, selecting materials, and delivering projects on time and within budget, earning numerous industry awards for his work.

Described by peers as a true "Renaissance man," Juan's interests in artistry, design and botany were honed during his childhood in Colombia and, later, living in New York and New Jersey.

Today, as partner and principal of Hoffman & Ospina, Juan brings his global perspectives and artist's eye to create unique designs – from large luxury estates to inspiring micro-spaces – for high-end residences in California, across the United States and worldwide.

In addition to his passion for his work, Juan has a heart for giving back and can be found teaching martial arts or art classes to underserved children in his community.

## EDUCATION

- Bachelor of Landscape Architecture, City College of New York
